We supply a full range of essential laboratory equipment, consumables, reagents and medical/health-care supplies. Also a broad range of personal protective equipment (PPE).

WWW.BMSCIENTIFIC.CO.ZA

Welcome to B&M Scientific

At B&M, we provide a full range of essential laboratory equipment, laboratory consumables, laboratory reagents and medical supplies.

About Us

At B&M, we provide a full range of essential laboratory equipment, laboratory consumables, laboratory reagents, and medical supplies.

We also offer a comprehensive selection of personal protective equipment (PPE) at affordable rates. With strategic suppliers and partners both locally and internationally, B&M is well-positioned to serve and focus on key industry sectors including:

- Biotechnology
- Chemistry
- Food Laboratory
- Industrial Laboratory
- Medical
- Pathology
- Forensics

How can we help you ?

Passionate about progress

Our Background

B & M Scientific cc (BMS) was founded in September 1989 by Mr A.M. Hargey (M.Sc) who had been studying, working and teaching in the science field. This need to provide scientific expertise and service, coupled with a commitment to service excellence is the core basis for the company's existence today.

BMS specializes but is not limited to the microbiology and biochemistry fields and is steadily growing with branches in the main centres of South Africa such as Cape Town, Durban and Pretoria. BMS was born out of the dark shadow of South Africa's past, thus the industry was untouched and still reflected the inequalities which it was still shedding.

VISION

As a black enterprise, BMS continues to grow by the opportunities created and the excellent service it provides within the retail lab sector. It has and will continue to make its mark as a dominant player. Our aim is to become the largest provider & source of equipment to laboratories in Africa with quality products and services which enhance and help the individual forming a lasting relationship between company and client. We should thus serve as a role model for black economic empowerment which will encourage future black entrepreneurs to enter the industry in the new South Africa

Mr AbdulMajid Hargey
M.SC CHEMICAL PATHOLOGY

Products List

At B&M Scientific, we supply superior quality laboratory equipment, glassware, porcelainware, ceramics, silica, plasticware, liquid handling and dispensing tools, pipetting devices, pH meters, stirring and shaking equipment, ovens, incubators, microscopes, thermometers, filter papers, chemicals, and more. We also offer a wide range of chemicals for food ingredients and additives.

Our diverse team comprises skilled professionals who are highly knowledgeable about our products and their scientific applications. Trust B&M Scientific for top-quality products and expert service in all your laboratory needs.
